EXPERIENCE

SOFTWARE ENGINEER.
Nalashaa Solutions Private Limited Bengaluru (2019-Jan to Present).
Engaged in all phases of the software development lifecycle which include: gathering and analyzing user/business system requirements, responding to outages and creating application system models. Participate in design meetings and consult with clients to refine, test and debug programs to meet business needs and interact and sometimes direct third party partners in the achievement of business and technology initiatives.

SOFTWARE ENGINEER.
Quickbill Solutions Private Limited Bengaluru (2017-Dec to 2018-Dec).
QuickBill software product is a business solution for small, midsize and large business operation from a single store to a large chain. It is scalable and complete solution for businesses at any stage.

PROJECTS

MEARSK INVOICE PROCESSOR.
Maersk is one of the Asia's largest shipping company where it produces lakhs of invoices per year, In order to do data analytics they need data extraction from invoice files.I have developed an application where it extracts the data from invoice files, it will do auto rotation if the file is in non 90 Degree rotation, it will do deskew operation if the files are scanned copies in non-90 degree rotation and also after data extraction it will store the data in corresponding database.

Technologies Used.
- **Front End** : Angular, HTML, CSS, Bootstrap
- **Backend** : C#, Node.JS, Express JS
- **Database** : MongoDB, SQL Server
- **Editor**: Visual Studio and VS Code.
- **Web Server** : Heroku Web Server

LIBERTY REPORTS (USA Client)
Liberty Reports is Excel add-in, which is used to generate reports using different databases like MS-SQL Server, MySQL, Vista, Sage-100 Contractor and Visual FoxPro etc. Use it to generate reports with your business data by transforming Excel into a powerful and intuitive reporting engine. Using the Liberty Reports add-in, Excel becomes the environment in which you design and run your business reports.

Technologies Used.
- **Front End**: WinForms.
- **Backend**: C#.
- **Database**: Various Databases like MS-SQL, SAGE 100 Contractor etc.
- **Editor**: Visual Studio.

QUICKBILL (SOFTWARE PRODUCT).
Quickbill is a billing software which is written using C# and Telerik controls and it support data synchronization between head office and branches. And quickbill have many customers in india as well as in other countries

Technologies Used.
- **Front End**: Telerik Controls and Angular (Mobile Applocation).
- **Backend**: C# and Azure functions.
- **Database**: MS-SQL Server.
- **Editor**: Visual Studio and VS Code.

EDUCATION   MASTER OF COMPUTER APPLICATIONS. (MCA)
Visvesvaraya Technological University, Regional Center Belagavi, "Jnanasangama", Mache, Belagavi
